

# SUSTAINABLE LUXURY? *OF COURSE!*

## THIS IS WHAT *WE DO*

- Most showers and taps have a low pressure to reduce water consumption
- We turn off half of the lights in the hallways at night
- We use 100% offshore wind power
- 95% of our light sources are LED or energy-saving bulbs
- We use heat recovery ventilation
- We don't use palm oil and we only serve MSC certified fish to protect the environment
- Our food waste is used for biogas
- Our old interior was donated to the charity 'Mødrehjælpen'

## THIS IS WHAT *OUR OWNERS DO* \*

- Environmental management – With our ISO 14001 certification, we focus on energy, water, waste, chemicals and transport – every day, in every hotel
- Fair trade – We follow strict standards and work closely with our suppliers
- Community – We support the local community and take responsibility beyond the walls of our hotels
- UNICEF – We support UNICEF in the fight against child trafficking

## THIS IS WHAT *YOU CAN DO*

- Unplug all your devices and adapters from the power sources when fully charged
- Use your towel more than once – save water
- Take shorter showers – go explore the city!
- Turn off the tap when brushing your teeth
- Try eating vegetarian – or at least a meat-free Monday
- Say no to plastic bags when shopping
- Reuse water bottles – tap water in Denmark is among the purest sources in the world
- Rent a bike at the reception – be sustainable and experience the city as a Copenhagener

\* AS PART OF NORDIC CHOICE HOTELS WE ARE DEDICATED TO CSR PRACTICES THROUGH THE "WE CARE" PROGRAM
